

## A Formula for Success

1. Look at the table and complete by adding a prefix and/or suffix.

<b>Adjective</b>	Anxious	Willing	happy	Confident	Tired	Disappointed	Hopeful	Excited	Jealous	Relieved
<b>Negative adjective</b>	NA					NA			NA	
<b>Adverb</b>										
<b>Noun</b>										

2. Your teacher will give you an adjective, you have to write a sentence which represents that feeling (see example).

**Example:** sad

*It's such a rainy day and I've fallen out with my best friend, could today get any worse?*

<b>Adjective</b>	
<b>Sentence</b>	

3. Listen to your classmates read out their sentences, write down how you think they feel. Make your judgement based on the content of their sentence and the intonation used by the reader. Each person has a different adjective.

<b>Adjective</b>	Anxious	Willing	happy	Confident	Tired	Disappointed	Hopeful	Excited	Jealous	Relieved
<b>Name</b>										

4. Listen to your teachers' instructions carefully. Move left or right depending on the prefix/suffix that you think should be used. You should end up in one of the cities at the top of the table after the four questions in each round.

	Mis-	ROUND 1	Dis-
	Un-	ROUND 2	In-
-ion		ROUND 3	-ity
-ment		ROUND 4	-ance -ence
